RECOD 2026 PRODUCT EXHIBIT

Guidelines and Mechanics

I. Purpose

The RECOD 2026 Competitive Product Exhibit Presentation aims to promote innovation, commercialization, and technology transfer in higher education by showcasing research-based, creative, and market-oriented products that address institutional, community, and national development needs, in line with the CHED research, innovation, and extension mandates.

II. Eligibility

1. The product must be original and developed by the students.
2. Research may be individual or group-based output, but only 1 presenter is allowed.
3. The presenter must be a principal developer or officially listed team member.
4. Products previously exhibited may be accepted provided they have not won major awards or have undergone significant improvement.

III. Categories of Product Exhibits

1. Research-Based Product / Prototype
2. Instructional Materials and Educational Technologies
3. Technological Innovation and Engineering Solutions
4. Creative Works and Design Innovations
5. Community-Based and Extension Products
6. Commercializable Products and Start-Up Concepts

IV. Exhibit and Presentation Format

1. Each participant shall be provided with a designated exhibit space or booth.
2. Exhibits must include:
 - Product title and category
 - Brief description and intended use
 - Target users or beneficiaries
 - Innovative features and uniqueness
 - A live product demonstration or oral explanation shall be conducted for the judges.
 - Digital presentations, posters, videos, or prototypes may be used to support the exhibit.

V. Time Allotment

Product Pitch / Demonstration 5–10 minutes
Question and Answer 3–5 minutes
Total Time 8–15 minutes

VI. Evaluation Criteria and Scoring

Criteria	Description	Weight
Innovation and Creativity	Novelty and originality of the product	25%
Functionality and Usability	Effectiveness, practicality, and user-friendliness	20%
Relevance and Impact	Alignment with institutional, community, or national needs	20%
Presentation and Demonstration	Clarity, organization, and communication skills	15%
Marketability / Scalability	Potential for adoption, commercialization, or replication	10%
Technical Quality and Feasibility	Design, durability, and technical soundness	10%
Total		100%

OFFICE OF THE RESEARCH AND DEVELOPMENT

VII. Judging Mechanics

1. A panel of 3 experts in innovation, industry, research, and entrepreneurship shall evaluate the exhibits.
2. Judges shall conduct on-site evaluations and interviews.
3. The average score from all judges shall determine the final ranking.
4. The judges' decisions are final and irrevocable.

IX. Awards

The following awards shall be given:

1. Best Product Exhibit
2. Second Place
3. Third Place
4. Special Awards - Best Innovation, Best Market-Ready Product, Best SDG-Aligned Product

X. Submission Requirements

Product abstract or description (200–300 words) with 4-6 keywords

For guidance and strict compliance.
